Introduction

Introducing every person to the healer within!

The Womb Sauna was founded as a company, in 2011 and within its first year impacted women in 15 different US states through vaginal steam medicine. The company continues to grow and thrive in many ways.

The Womb Sauna University (WSU) was developed in February 2013 as a resource to train people in the Womb Sauna's method of mobile vaginal steaming, as well as ways to use all natural, holistic approaches to create and maintain good health and wellness.
